

THE SKIN TO LOVE CLINIC

“ **Client service and standards of care are excellent.** Particularly impressed with the clinical skills, competence and professionalism demonstrated. I am delighted with the results. Why travel to central London for aesthetic care when there is an outstanding clinic with excellent practitioners in St. Albans. **C.W**

Such an asset to the City. It is very private, so you don't need to feel uncomfortable. All the staff are just lovely, I would say book in and start to see the results. S.T

Knowledge and types of treatments are second to none. They would give any Harley Street practice a run for their money. I honestly couldn't recommend them more highly, it would be hard to find anyone better. **A.L**

Polite, sensitive and professional. I wish I knew about this service sooner instead of wasting my money. They're amazing and their treatments exceeded my expectations. If I could give ten stars I would. **D.O**

Staff were lovely and didn't push at all. Prices were reasonable and made clear to me - no horrible shocks. **H.E**

You have no idea how much of a difference just a few months of seeing you and using your recommended products has improved my skin. I now look forward to using products without fear of them making me break out or wasting my money on 'marketing'. **R.P**

Thanks again for such friendly and attentive expertise. You've really helped to boost my confidence in facing up to the passage of time! Five stars, excellent. **A.M**”

TREATMENT MENU

Our medical and cosmetic team offers over 100 years of collective experience and knowledge, alongside clinically-proven, recommended treatments and cosmeceuticals to help you look and feel your best. We work with some of the most in demand and market-leading brands, such as Fraxel, Soprano Ice, Medik8 and SkinCeuticals; we've even developed our own exclusive product line, Skin to Love, to help you feel confident and happy that your skin is the best that it can be.

Importantly, we tailor our offering around you; we strive to give you options based around how quickly you wish to see results and your budget. Although many of our clients seek us out for our sought-after treatments others simply want an at-home product regime specifically designed for them.

We offer a free consultation with one of our medical staff where you will have the chance to discuss your concerns and find out how we can help you. During this consultation your practitioner will perform a Visia skin analysis on you; this will give you an in-depth insight into your skin's condition, both topically and subsurface. You will gain a better understanding of your skin needs and therefore, how you can get the best out of it.

To ensure your suitability you must have a free consultation with one of our team before we can recommend treatments or products.

Call us on 01727 837429 to book your free consultation and let us care for your skin.

Blemishes

This is a common problem often presenting with whiteheads and blackheads, which vary in degree of severity. We offer alternatives to just systematic treatments, as well as regular support and review appointments:

Isolaz prices from £550

This revolutionary treatment uses photopneumatic technology to significantly reduce spots, blackheads, oil and pore size and improve texture.

Glycolic peels from £55

These peels gently exfoliate the top, dead layers of the skin.

Salicylic peels from £12

These peels help to reduce oil and any inflammation caused by acne.

Topical Creams from £15

We have a range of products with active ingredients to allow us to create an at home product regime especially for your skin.

Scarring

There are various types of scars from acne 'ice-pick' scars to pigmented scars, also known as macular scars. We can offer:

Fraxel Dual from £350

This laser treatment can be used on all skin types to eliminate old, damaged skin cells with fresh, healthy skin. Precise, safe and effective.

Clear + Brilliant from £250

Using the same technology as Fraxel, this softer laser is often thought of as Fraxel's 'little sister'. This treatment can help to create a more even skin tone.

Chemical Peels from £200

This treatment can help superficial scars by exfoliating the surface of the skin.

Dermal Filler from £240

This treatment can be used to elevate a depressed scar to give a smoother appearance.

Topical Creams from £31

We have a range of products with active ingredients to allow us to create an at home product regime especially for your skin.

Loose skin

Aging and weight change can cause the skin to become loose and sag. We can offer:

Thermage from £1,400

Non-invasive treatment for skin tightening, lifting and contouring. Single treatment, with clients reporting results lasting over two years.

Near Infrared from £80

Helps to improve tone and texture. Often had before a special event to give the skin a boost or as a 2 to 4 week skin tightening facial.

Topical Creams from £54

We have a range of products with active ingredients to allow us to create an at home product regime especially for your skin.

Fine lines and wrinkles

A normal, yet often undesirable, aspect of the aging process. We have many different options to help with age management:

Wrinkle relaxing injections from £250

These help to reduce the muscle activity which cause lines and wrinkles such as frown lines and crows feet.

Dermal Filler from £240

This treatment replaces the skin's deminishing natural sugars, Hyaluronic Acid, to subtly regain a plump and full appearance. Can be used on the face and hands to help reduce lines, wrinkles and loss of volume.

Fraxel Dual from £450

This laser treatment can be used on all skin types to eliminate old, damaged skin cells with fresh, healthy skin. Precise, safe and effective.

Clear + Brilliant from £250

Using the same technology as Fraxel, this softer laser is often thought of as Fraxel's 'little sister'. Not only does this treatment improve unwanted signs of aging, it gives you the power to help prevent them.

Chemical Peels from £200

This can help signs of aging by removing the top layers of skin, helping to reduce age spots and lines and wrinkles.

Glycolic Peels from £55

These peels gently exfoliate the top, dead layers of the skin to help freshen up a dull, sallow complexion.

Topical Creams from £38

We have a range of products with active ingredients to allow us to create an at home product regime especially for your skin.

Loss of facial volume

This is often a result of aging or weight loss. We use some of the most sought-after products to subtly volumise areas which have lost their natural plumpness.

Dermal Filler from £240

This treatment replaces the skin's deminishing natural sugars, Hyaluronic Acid, to subtly regain a plump and full appearance. Can be used on the face and hands to help reduce lines, wrinkles and loss of volume.

Pigmentation

A common condition which can show itself in the form of brown marks, freckles and Melasma, amongst others. We can offer:

Fraxel Dual from £350

This laser treatment can be used on all skin types to eliminate old, damaged skin cells with fresh, healthy skin. Precise, safe and effective.

Clear + Brilliant from £250

Using the same technology as Fraxel, this softer laser is often thought of as Fraxel's 'little sister'. This treatment increases the permeability of the skin allowing up to 17% more of your topical treatments to penetrate.

Chemical Peels from £200

This treatment works on the upper layers of the skin helping to remove or soften the appearance of pigmentation.

Glycolic Peels from £55

These peels gently exfoliate the top, dead layers of the skin helping to promote the expulsion of superficial pigmentation.

Topical Creams from £45

We have a range of products with active ingredients to allow us to create an at home product regime especially for your skin.

Aging Hands

Often an area that ages faster than others due to thin skin, daily exposure to UV rays and a small amount of fat to plump and conense the the underlying structures of the hand, such as ligaments.

Fraxel Dual from £400

This laser treatment can be used on all skin types to eliminate old, damaged skin cells with fresh, healthy skin. Precise, safe and effective.

Clear + Brilliant from £250

Using the same technology as Fraxel, this softer laser is often thought of as Fraxel's 'little sister'. Not only does this treatment improve unwanted signs of aging, it gives you the power to help prevent them.

Chemical Peels from £200

This can help signs of aging by removing the top layers of skin, helping to reduce age spots and improve the thickness of the skin.

Dermal fillers from £240

This treatment replaces the skin's deminishing natural sugars, Hyaluronic Acid, to subtly regain a plump and full appearance, helping to hide the underlying structures of the hand.

Topical Creams from £40

We have a range of products with active ingredients to allow us to create an at home product regime especially for your skin.

Enlarged Pores

Genetics, age, oil production and skin type are all contributors to enlarged pores and can

give the skin an uneven, irregular appearance. There are effective ways to greatly reduce the appearance of pores, leaving you with a more even, smoother complexion. We can offer:

Clear + Brilliant from £250

The American Academy of Dermatology rate this treatment the 'gold standard' for pore refining. Using the same technology as Fraxel, this softer laser is often thought of as Fraxel's 'little sister'. Not only does this treatment improve unwanted signs of aging, it gives you the power to help prevent them.

Isolaz from £580

This revolutionary treatment uses photoneumatic technology to significantly reduce blackheads, oil and pore size and improve texture.

Topical Creams from £15

We have a range of products with active ingredients to allow us to create an at home product regime especially for your skin.

Facial Redness or Veins and Leg Veins

Common in both males and females and can be the result of numerous factors including sun damage, age, trauma or a skin condition called Rosacea. We can offer:

Veinwave from £250

This treatment uses thermal coagulation to reduce and remove broken veins on the face and legs.

I.P.L from £400

This treatment offers Intense Pulsed Light therapy to target facial redness.

Microsclerotherapy from £250

A series of small injections are used to treat fine red leg veins

Topical Creams from £21.50

We have a range of products with active ingredients to allow us to create an at home product regime especially for your skin.

Nose Imperfections

Non-surgical rhinoplasty can be an alternative if you don't wish to go down the traditional surgical route. This treatment can change the shape of the tip of your nose, soften angles or bumps and fill dips without general anesthetic or surgical recovery time. We can offer:

Dermal Filler from £240

These injections are used to correct minor defects usually on the bridge of the nose.

Muscle relaxing injections from £250

This treatment can be used to stop the tip of the nose turning downwards in some cases.

Excess Hair

Some methods of hair removal can cause unsightly, uncomfortable rashes and pigmentation in the treatment area and sometimes need repeating daily. Laser hair removal is one of the most effective and sought after methods of removing your excess hair.

Soprano Ice from £30

This hair removal laser is safe to use on all skin types, has clinically-proven results and is significantly more comfortable than other laser hair technologies. We offer a complimentary test patch during your consultation so you can start treatment as quickly as 24 hours after.

Stubborn pockets of fat

Liposonix from £450

A non-invasive fat removal treatment that uses high focused, intense ultrasound to help those areas that do not respond to a healthy diet and exercise. On average clients can expect to see a reduction of one trouser size, although results vary.

Call us on 01727 837429 to book your free consultation and let us care for your skin.

All prices can be subject to change.
