

Scaling your business

together

Would you like to see your business grow, with a larger team and a bigger turnover? A national network of world-class Business Schools are here to help you do just that – our excellence can help you reach your true potential.

The Government is offering a funding grant of £3,000 – to match with your own £2,000 – for you to take part in our practical course of business growth workshops. Together we will help you develop:

- Improved access to financing
- New ways to recruit and manage your growing team
- A clear focus for your own potential
- Strategies to beat the competition
- Marketing plans to deliver your ambition

All of which is supported with up to 10 hours of personal 1-on-1 mentoring.

Starting with a free business diagnostic workshop worth £500, we will help take your business to new heights. Your route to a bigger future begins here.

To take part, you need to own a business registered in England, have 1-19 employees, an annual turnover of less than £3.2m, have been actively selling goods and/or services for at least 12 months, and have not paid for strategic advice in the past 3 years.
