

Chester Cathedral

and the biggest mini-adventure
of its 1000 year history

You can be part of it...

Ages: 0+

350,000 pcs

Scale: 120th

Size: 4m x2m

The Chester Cathedral in LEGO build project will take 350,000 individual LEGO pieces and transform them into an accurate scale model of the cathedral that will reach almost 4 metres in length and 2 metres in height

 **30:** number of months it will take to build the model

 **05:** distance in miles the LEGO bricks would span if laid end to end

 **10:** number of special features painstakingly recreated - such as the Grand Organ

 **20:** number of volunteer bricklayers who will work every day of the week to build the model

How can I get involved?

Purchase a LEGO brick that will be included in the model for £1. Visit the LEGO model in the cathedral and buy your bricks in person, or donate online at www.chestercathedral.com

All donations go to the Chester Cathedral Education Trust. LEGO, the LEGO logo, are trademarks of the LEGO Group. © 2015 The LEGO Group. All rights reserved.
