PC Support & Installations

We can recommend and supply new hardware/software as well as maintaining your existing equipment. Our support contracts offer peace of mind knowing that technical help is never too far away. We know the importance of a reliable system and that downtime costs you money.

Network Infrastructure

With experience in network infrastructure DTE IT Support offer a comprehensive and hassle free service from design through to installation. We also advise on telecoms lines and internet services where appropriate.

Office Relocation

Having a single point of contact for all your IT related matters throughout your relocation minimises the potential conflicts between service providers. From a single device, to a complete management package, DTE IT Support has a cost-effective solution to suit your business. Our forward planning, technical expertise and professionalism ensure that your IT equipment will be delivered safely, handled correctly, on schedule, fully functional and within budget.

Cloud Solutions

Grow your business with the power of the cloud. DTE IT Support offers a wide variety of hosted solutions including Office 365, hosted exchange, online backups and fully hosted servers.

Accountancy Packages

Every business needs to understand its finances. We have a wealth of experience in advising and providing accounts packages whether traditional or cloud based. We are able to identify the correct financial accounts system for you and your business. We deal with a wide range of accounting software solutions including Sage and Kashflow.

Office 365

Work anywhere. Office 365 delivers the best value to small and medium size businesses, through cloud subscription services. This means that everyone in your business can access the familiar Office desktop applications as well as business-grade email, shared calendar, and online meetings, wherever they are, on whatever device (subject to internet connection).

UK Hosted Email

At a massive 125GB, our Hosted Exchange Mailboxes are the largest around, meaning you can enjoy even more storage space, across all your devices. And with increased regulation regards data privacy, it is now more important than ever that your data is hosted safely within the UK, by a company you can trust.

UK Online Backups

Keep your data safe with our UK cloud back up service. Our hosted backup solution offers a fully compliant, cover-all, end-to-end solution for your backup issues. The solution creates a backup of the data on all of your computers, irrespective of your location.

Software Solutions

Don't let your software dictate your business. We will work closely with you to implement the correct software tools, whether it be an off the shelf product or a bespoke system designed just for you, allowing your business to grow and achieve sustainability.

Security and Anti Virus

With threats constantly evolving you need to secure your business with appropriate security measures. Anti-virus software and Firewalls will help protect your business data and minimise the disruptions caused by unexpected events.
