I came to Bradie at Physio Motive for my bad shoulder from work to see if the pain could at least be reduced. After one session Bradie was able to pin point exactly which muscles were tense and caused the pain. After the initial session of physio the pain was reduced greatly and I was so pleased! After the second the pain was almost gone. Now I will go monthly just to keep on top of the issue. Great customer service, very knowledgeable and easy to communicate with! I would highly recommend Bradie & Physio Motive to everyone even if the issue is minor it's more manageable getting physio sooner the better. 😊
