

**GREAT VALUE, EXCELLENT SERVICE**

Our independent, family-run business has been supplying landscaping and building projects across the West Midlands for over 30 years. We take pride in servicing all our customers; from DIYers and self-builders, through to large trade firms. The knowledge of our staff, the 60,000ft<sup>2</sup> of stock at our Walsall and Aldridge sites, and one of the largest, most flexible fleets of vehicles around make us the no.1 supplier in the area. Buy online, visit us in-store, email us, or call for immediate delivery.

### GILL'S ULTRA MIX CONCRETE

Experience zero waste with volumetric concrete from Gill's Ultra Mix Concrete. Our precise mixing process ensures you receive the exact amount needed for your project, minimising waste and unnecessary costs.

### WHAT CONCRETE STRENGTH SHOULD I USE?

Always use the right concrete mix strength for your project. We can advise on the right concrete for your job. The varying grades of concrete are made up of three basic components: water, aggregate (sand, gravel, or crushed stone) and Portland cement. The cement itself, usually in powder form, acts as a binding agent when mixed with water and aggregates.

### ON TIME, ON BUDGET

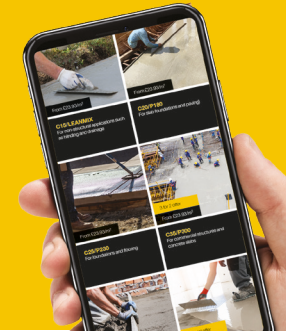

We recognise the importance of maintaining your budget while ensuring top-notch quality. At Gill's, we provide competitive pricing to deliver the best value for your investment. Our transparent pricing calculator ensures you know exactly what you're paying for, with no hidden fees.

### QUALITY AND RELIABILITY

Our ready-mix concrete meets the highest industry standards, guaranteeing strength, durability, and performance. Our team is focused on meeting your deadlines with precision and professionalism.

### WEB, STORE OR PHONE

Visit us in store, give us a call, or go to our website to see a huge range of products.

**FREE LOCAL DELIVERY**
